Ray Law has lent out some of his stuff such as maps, pamphlets and UV lights and would like for them to be brought back to him. Also, if anything else was borrowed please be kind enough to return them. Many thanks.

Everyone Please, verify to see if you have his items as the rock club wants to get them back to him to find new places to go for the Rock Club field trips.

We have not received any suggestions for what trips you would like to go on or if you know of a new place we have not been to. Do some research and give us the information so that we may do more research and find some new places to hunt. Also, if there are samples of rocks on you new places bring a sample in to show others so that they know what they are looking for.

Joe Bishop will be coming to Utah to go to Fry Canyon which is about 54 miles West of Blanding UT or about 72 miles south of Hanksville UT close to Bears Ear on highway 95, he will be there April 5-6-7th or longer if he is finding good specimens. Anyone wanting to join him, he will be staying at the Moss Back camp ground, his phone number is 303-748-2055 call him so that he will know to expect you.

Everyone in the club is welcome to come. Participants **Must have** high profile vehicles with 4-wheel drive. The Moss Back road (turn off) will be on highway 95 about a ¼ mile north of the 276 turn off to Halls Crossing, or about 84 miles from Hanksville. When you get there, you can call Joe and he will come meet you to show you the road if you cannot find it or if you are not sure you have found it. There are a few spots to camp down off of the highway for trailers... He is going to take a tent and stay up on top of Moss Back about 3 miles farther in... he does not recommend taking the trailers all the way in.
